PatentPrism v.1.0 Chord Chart

2	3	4	5	6	**Delete or move row**	**Restore or place row**	**Insert a row**	**Format references**

Entire Row(s) Select: *Select row and vertically for the rows you wish to select. Entire Row is maintained through insert or delete row, and with vertical keyboard arrows. Other selections turn Entire row selection off.*

Delete Row(s): *Select at a row and vertically for the rows you wish to delete. Up to 20 deleted rows are backed up in a rolling register; recoverable using the Restore or place function.*

Replace/Restore row(s): *Select at a row and vertically for the rows you wish to restore (up to 20) from the rolling register (see Delete above). If the register is empty, Restore behaves like Insert rows.*

Insert Row(s): *Select at a row and vertically for the number of rows you wish to insert (20 maximum).*

Global Formatting Button: *Formats all entries in the workspace: establishes/restores hyperlinks, formats and spacing, converts pasted entries into a common record format. Select a single position along the bar.*

6543210 — ***Link to USPTO patent number search page.*** *Paste into text field at the web page, then select "Search."*

20040123456 — ***Link to USPTO publication number search page.*** *Paste into text field at the web page, then select "Search."*

WO2005054321 — ***Link to WIPO search page.*** *Paste into text field at the web page, then select "Search."*

WO2005054321 — ***Move Row(s) to a Reserved Area:*** *Select at a row and vertically for the rows (max 20, any type data) you wish to move to a list at the top of the workspace.*
